

SUMMER SCHOOL

02.09.2024 -12.09.2024 (10 days)

ONE HEALTH

AT THE HUMAN - WILDLIFE INTERFACE

intricate relationships between

ecosystems, wildlife, and human health.

Join us for exploring ecosystem dynamics, emerging diseases, and invasive species among Armenia's breathtaking landscapes. The program includes lectures, laboratory trainings and fields expeditions to various beautiful natural areas, led by experts from Austria and Armenia.

Key Topics:

- Principles of One Health approach
- Zoonotic disease transmission
- Wildlife ecology and management
- Monitoring of wildlife
